EXPERIENCE

React Developer

Apr 2023-Jun 2023

TH-ey / Lean Building Project

An application supporting building process. I have worked on front-end, on development of new components and integration with back-end.

Stack: TypeScript, React, Zustand, React-Query, Zod, React-Grid

Software Engineer

Jan 2022-Oct 2022

Mobica / Navico 13 Project

Interface of application for gathering and displaying yacht key parameters (speed, wind, drift etc.) as well as calibration of sensors. Roughly 60% on modifications and fixes and 40% on new features.

Stack: TypeScript, React, Redux, WebSockets

React Developer

Aug 2021-Sep 2021

Th-ey / Book & Beauty Project

An application for booking visits in beauty salons. I have worked on front-end, mainly on redesign of admin panel

Stack: TypeScript, React, Redux

Blog Developer

Nov 2020-Oct 2021

PKT

I have added blog functionality and initial content to numerous sites developed with WordPress, Joomla and few other CMS-es. Also, added my custom mini-template and modified existing ones, changed site behaviour with extra scripts and deeply restyled site content.

Stack: JS, PHP, CSS, WordPress

Front-end intern

Nov 2019-Feb 2020

Moonheads

I have modified web sites (set up usually with various frameworks – WP, Code Igniter, company custom software). Used to focus rather on the HTML / CSS / JavaScript layer and only occasionally PHP. Added or modified content to the above. Less often I have been engaged in building simple HTML pages from the scratch as well as repairing and modernizing hardware.

A few examples of sites I have touched:

- The house construction cost assessment form, modal prompting to call-back, call-back button, buttons in the section of completed projects, some calculation scripts: <https://new-house.com.pl/>
- Restyling of Chopin festival subpage: <https://nifc.pl/pl>
- Contact form: <https://kancelariafrankowicza.pl/>
- Various changes: <https://anlaya.pl/>
- Built from scratch <http://spade-garage.com/>

Stack: JS, PHP, CSS, WordPress

EDUCATION

- **Warsaw Technical University-Faculty of Chemistry:** M.Sc.Eng. in Organic Chemistry and Technology
- **Cosinus Post-Secondary School:** IT Technician
- **CISCO:** IT Fundamentals

SKILLS

- **Apply on everyday basis and continuously improve:**
HTML, CSS/Sass, JS, React, Redux, React-Router, Redux-Thunk, Material UI, TypeScript, Styled Components, Yup, React-Query
- **Only basic knowledge:**
PHP, SQL, Linux, jQuery, Bootstrap, PUG, Web Workers, Next.js, Web Components.
- **Languages:** Polish: Native, English: good, Spanish, Italian, Russian: basic

AVAILABILITY

I am available immediately for full time of 40 hours a week, open to both remote and hybrid positions, and not for relocation from Warsaw.

HOBBY

Gardening, cooking, music, tourism, biking
